**RAILROAD DEPARTMENT**

**ROAD ACQUIRES  
NEW LINE IN  
TEXAS**

**Santa Fe Picks Up Important  
Link Connecting  
Its Lines.**

A rehabilitation of the Gulf & Inter-  
state railroad system is under  
way. It is being accomplished by the  
Atchafalaya, Topeka & Santa Fe Rail-  
way company which recently secured  
control of this line. And the an-  
nouncement is made that the road  
will be in first class running order  
within ninety days.

The Gulf & Interstate is an old  
road, seventy-five miles long, run-  
ning along the Gulf coast for forty  
miles into Galveston. It is proposed  
by the Santa Fe to put its newly ac-  
quired property into first class condi-  
tion for the purpose of making it one  
of the connecting links of a new Santa  
Fe trunk line, running from Gal-  
veston, northeast to Center, Tex.,  
and thence on to a point in Okla-  
homa, making a connection with the  
main line.

**Will Receive New Life.**  
Ruined by the great Galveston  
storm, the original Gulf & Interstate  
was never rebuilt for lack of funds.  
Now that it is to be made a road  
again, or a part of one, the in-  
cident is recalled of the passenger  
train which left Beaumont over it on  
the night of the Galveston flood and  
was three years in making the return  
trip.

After the disastrous storm the gen-  
eral manager of the road said there  
was nothing left of it but a mortgage  
and a map, both of which were luck-  
ily outside the state at the time of  
the disaster.  
The road was reopened in 1904  
and at that time the rails used were  
lighter than those in use on most  
street railway lines. This road fur-  
nishes a direct line from Beaumont  
to Galveston, via a ferry from Port  
Bolivar, Texas. For nearly forty  
miles the road hugs closely to the  
coast of the Gulf of Mexico.

**SUCCESSFUL TEST ABROAD  
OF NEW DANGER SIGNAL.**

Washington, August 8.—The suc-  
cessful demonstration of a new  
railway signaling apparatus is de-  
scribed in a letter from an English  
writer to the Congressional Bureau. It is  
the invention of H. J. Jelfcoat, of  
Crewe, and to the test took place on  
the Wirral railway in the presence  
of railway officials and newspaper  
men. A locomotive running sixty  
miles an hour, with its cab enveloped  
in tarpaulin, so that the engineer was  
entirely shut off from the outer  
world, was confronted by the distant  
danger signal set against it. The en-  
gine at once began to slow up and  
stopped dead at the home signal un-  
til the semaphore arm dropped, when  
it moved ahead again. The state  
of the signals was communicated to  
the engineer by an indicator in the  
cab, which announced them by bell,  
semaphore, and light.

Two long bars parallel to the rails,  
one beginning where the engine was  
placed, and as the engine passed  
over them, according as the semaph-  
ore was "on" or "off" one  
or other of the bars rose on its  
pivots and pushed up one or other  
of two little plunger wheels which  
projected from the locomotive, and  
as it did so a bell was rung in the  
cab. The practicality of the in-  
vention, which is simple and cheap,  
was admitted by those who witnessed  
the test.

**ORDERS MADE FOR ALL  
STEEL BOX CARS.**

Satisfied with the performance of  
the experimental all-steel box car  
built at its Omaha shops, the Union  
Pacific railroad has ordered 25 of  
these cars to be constructed im-  
mediately. With a capacity of 50 cubic  
feet more than that of the standard  
Union Pacific wooden box car, the  
steel car weighs less than the  
\$600 pounds. Besides affording great-  
er safety and protection to goods in  
transit, the steel car requires less re-  
pairing than a wooden car, will be  
out of service less frequently and  
will therefore give more as well as  
better service to carrier and shipper.  
A 15-inch steel one beam frame  
forms the center side of the car below  
the double steel flooring. Actual tests  
have shown that the one-eighth inch  
sheet steel forming the sides and  
ends of the car is stronger than the  
wood usually used. Tests have also  
developed the fact that the steel un-  
derframe of a wooden box car can  
not stand up against the all-steel  
box car. In collision the end of a  
wooden car was badly damaged,  
while the steel car was uninjured.  
The doors of the steel car are formed  
by single sheets of steel rein-  
forced, like the sides and ends of the  
car, by diagonal bracing.  
The anticipated difficulties in  
loading and unloading and the in-  
jury that the steel sides and bottom

round-house from the rising of the  
Rio Puerco river, which at times gets  
quite high.

G. F. Nicholson, third vice pres-  
ident of the Santa Fe, whose head-  
quarters are in Chicago, passed  
through here yesterday on No. 1. He  
is on his way to the Grand Canyon.

James McFarland, the Santa Fe  
special officer who was shot in the  
back a short time ago by a tramp at  
Belem, has returned to the company  
hospital north of Las Vegas from a  
trip to Gallup, where he went to  
identify a prisoner held there. Mc-  
Farland recognized the man as the  
one who did the shooting, and he is  
now confined in the jail at Las Lu-  
nas. McFarland, although able to  
be out and around, is still under the  
doctors' care at the hospital. He ex-  
pects to be discharged from the hos-  
pital in a few days.

**TO AILING WOMEN.**

**A Little Sound Advice Will Help  
Many a Sufferer in Albuquerque.**  
No woman can be healthy and well  
if the kidneys are sick. Poisonous  
waste is retained in the body  
when the kidneys are sick. Kidneys  
and bladder get inflamed and swell-  
ing, crowding the delicate female or-  
gans nearby and sometimes displac-  
ing them. This is the true cause of  
many bearing-down pains, lameness,  
backache, sideache, etc. Urine  
poisoning also causes headaches, dizzy  
spells, languor, nervousness and rheu-  
matic pain.  
When suffering so, try Doan's Kid-  
ney Pills. The remedy that cures sick  
kidneys. You will get better as the  
kidneys get better, and health will  
return when the kidneys are well.  
Let an Albuquerque woman tell you  
about Doan's Kidney Pills.  
Mrs. H. Adair, of 117 South Edith  
street, Albuquerque, N. M., says:  
"Whether my symptoms indicated  
kidney trouble or not, I was not  
certain, but nevertheless from read-  
ing about Doan's Kidney Pills I was  
given a desire to try them to see if  
they would not afford me at least  
some relief from the pains between  
and just below the shoulder blades.  
While on my feet or stirring around,  
I did not feel the slightest inconve-  
nience, but when I would sit down, the  
pains would assert themselves and at times  
were very severe. The use of one box  
of Doan's Kidney Pills brought relief  
that warrants my having a high ap-  
preciation of this medicine."

For sale by all dealers. Price 50  
cents. Foster-Milburn Co., Buffalo,  
New York, sole agents for the United  
States.  
Remember the name—Doan's—and  
take no other. No. 25

**Eczema.**  
For the good of those suffering  
with eczema or other such trouble  
wish to say, my wife had something  
of that kind and after using the doc-  
tors' remedies for some time con-  
cluded to try Chamberlain's Salve  
and it proved to be better than anything  
she had tried. For sale by all drug-  
gists.

**NEW LAW TO BE  
THOROUGHLY  
TESTED**

**Rates and Other Railroad  
Matters Will Be Tried  
In Court.**

Washington, D. C., August 8.—  
The rate making power of the federal  
government under present laws, is  
likely to be thoroughly tested as a  
result of two famous cases before  
the interstate commerce commission.  
In the case of the Texas Cattle  
Raisers' association against the  
southwestern railroads, it is insisted  
that an increase in the rate on cattle  
from the southwest to the big mar-  
kets was unreasonable and should  
not be permitted to take effect. The  
commission, before the new rate law  
passed, found that the complainants  
were right, but no order was issued  
because about that time the new law  
passed, and it was desired to go far-  
ther into the matter, and to decide it  
under the new law.

The Spokane rate case gave occa-  
sion for a great array of legal tal-  
ent. There was some threshing out  
of the fundamentals of railroad rate  
making in the case. The railroads  
present valuations of their property  
which they say prove that they are  
not over capitalized. These valua-  
tions are made by engineers and oth-  
ers. The petitioners answer these by  
pointing out that the valuations on  
which the same railroads pay taxes  
are only about 20 per cent as much  
as those which they now undertake  
to sustain in the rate case.

**Difference in Rates.**  
It is conceded by railroad peo-  
ple that their ton-mile rate to Port-  
land and Seattle, from New York, is  
about seven mills, while from New  
York to Spokane it is about twelve  
mills. Brooks Adams, whose entire  
theory in handling his case is an  
elaboration of the proposition that  
railroad rates constitute a tax, and  
therefore, should be equitably dis-  
tributed, argues that this is a man-  
ifest discrimination against his clients.  
The case was watched with great in-  
terest throughout the entire west, be-  
cause of the fact that the railroads  
would compel general recognition of  
rate schedules throughout the west.

DeWitt's Kidney and Bladder Pills  
are best for backache, rheumatism, kid-  
neys. Sold by J. F. O'Reilly & Co.

**LARGE DELEGATION  
FROM SILVER CITY**

Silver City, N. M., August 8.—  
(Special.)—Quite a large delegation  
of Silver City and Grant county res-  
idents left here last night to attend  
the inauguration of Governor Curry  
at Santa Fe. A large of one fare for  
the round trip was secured on the  
railroad, which greatly increased the  
attendance.

**Same Abroad.**  
By similar tactics abroad they  
have risen into a dominating position  
in the trade of Canada, Great Brit-  
ain, France, Austria, Belgium, Ger-  
many Russia and Australia, and are  
making rapid progress towards the  
establishment of a world's retail com-  
pany. The marvelous growth of photo-  
graphy in recent years furnishes a  
greater commercial field than Stand-  
ard Oil enjoyed a quarter of a cen-  
tury ago. Thus it is that the corpo-  
rations which have been combined by  
the Eastman company of New Jer-  
sey are rated at upwards of 100 mil-  
lion dollars, which is the capitaliza-  
tion of the Standard Oil company.

The camera companies which have  
entered into this combine are the  
Harr Camera company, Maine; the  
American Camera Manufacturing  
company, Massachusetts; Century  
Camera company, Rochester Optical  
company, Bay Camera company,  
Rochester Camera and Supply com-  
pany, Palmer Schwing and the East-  
man Kodak company of New York.

There's nothing so good for a sore  
throat as Dr. Thomas' Electric Oil.  
Cures it in a few hours. Relieves any  
pain in any part.

**"Regular as the Sun."**  
Is an expression as old as the race.  
No doubt the rising and setting of  
the sun is the most regular perfor-  
mance in the universe, unless it is  
the action of the liver and bowels  
when regulated with Dr. King's New  
Life Pills. Guaranteed by all drug-  
gists. 25c.

**Drowned in the St. Lawrence.**  
Montreal, August 8.—It is believed  
that Shirley Davidson, son of Judge  
Davidson, and Miss Hingston, daugh-  
ter of the late Sir William Hingston,  
the Canadian surgeon, were drowned  
in the St. Lawrence yesterday.

**Railway Taxes Raised.**  
Pierre, S. D., August 8.—The state  
board has increased railroad valua-  
tion 33 per cent. This makes the  
total valuation for the roads of this  
state this year more than 21 million  
dollars.

**Her Bullet Went Wild.**  
Caney Kan., August 8.—Mrs. R.  
M. Simpson attempted suicide late  
yesterday afternoon by shooting her-  
self with a revolver. The bullet en-  
tered her left side about four inches  
above the heart.

**One Corporation Said to Con-  
trol 75 Percent of  
Business.**

New York, August 8.—Evidence  
has been unearthed which goes to  
prove that the manufacture and sale  
of cameras, plates, film, papers and  
other accessories of the photographic  
art are passing into the hands of a  
monopoly.

The methods by which this conspi-  
racy is being consummated resemble  
those practiced by the Standard Oil  
company. The Eastman Kodak com-  
pany of New Jersey, a mere paper  
corporation without one dollar in as-  
sets, controls a score of the leading  
manufacturers of photographic goods,  
all of which formerly were bitter  
rivals. Acting together, these cor-  
porations, it is asserted, have con-  
ceded nine-tenths of the retail de-  
alers of America to join in a boycott  
of all independent makers. As a re-  
sult, the conspirators are doing 95  
per cent of the photographic supply  
business of the nation.

**Same Abroad.**  
By similar tactics abroad they  
have risen into a dominating position  
in the trade of Canada, Great Brit-  
ain, France, Austria, Belgium, Ger-
